ELECTRICFIX BOLSTERS POWER TOOLS RANGE WITH NEW MILWAUKEE PRODUCTS

Screwfix has introduced new Milwaukee power tools and accessories to its range, offering more power and run time to support busy tradespeople.

With an Electricfix account, electrical contractors can boost their toolbox with the Milwaukee M18 Brushless Cordless Combi Drill & Impact Driver Twin Pack. The pack is Trade Rated, an independent rating that shows the products are well regarded among trade customers. It boasts an 18V Brushless Combi Drill and Impact Driver, two 18V 4.0AH Li-Ion batteries, an 80-minute multi-voltage charger and a robust carry case.

The impact driver and drill are equipped with Milwaukee's RedLink Plus intelligence system that allows for full-circle communication between the tool, battery and charger. The system constantly monitors internal systems and helps maintain peak operating conditions.

Matt Compton, Trading Director at Screwfix, commented: "We are committed to providing the best product range with advanced technology that allows tradespeople to stay on the tools for longer and with more power. This new Milwaukee bundle offers Electricfix customers the chance to own one of the most advanced 18V drills and impact drivers on the market and is a great new addition to our catalogue."

Another Milwaukee product available through Screwfix is the M12 CH-602X FUEL 1.9KG 12V 6.0AH Li-Ion RedLithium Brushless Cordless SDS Plus Drill. This powerful and compact rotary hammer drill boasts a long motor life with increased power and is also protected by Milwaukee's RedLink Plus system.

Screwfix offer a range of power tool accessories to help electricians get the most from their tools. One such accessory is a 25 pack of Milwaukee Shockwave Impact Screwdriver Bits. Recently voted as Product of the Year by Screwfix customers, these bits with precision-

milled tips provide the best fit for the screw head and have an optimised 'shock zone' that reduces stress at the tip and results in fewer breakages.

Qualified electrical contractors can get hold of the brand new Milwaukee products online at www.electricfix.com, from one of over 640 Screwfix stores nationwide or via its 24/7 contact centre on 03330 112 333. Screwfix's Click and Collect service enables customers to pick-up goods in as little as one minute after ordering and its next day delivery is available every day.

ENDS

About Electricfix:

Electricfix is a supplier dedicated to electrical contractors. The business has developed pioneering partnerships with SELECT, NICEIC, ECA and Electrical Safety First to support the industry and promote safety in electrical installation.
