**PLUMBFIX BOLSTERS POWER TOOLS RANGE
WITH NEW MILWAUKEE PRODUCTS**

Screwfix has introduced new Milwaukee power tools and accessories to its range, offering more power and run time to support busy tradespeople.

With a Plumbfix account plumbers and installers can boost their toolbox with the Milwaukee M18 Brushless Cordless Combi Drill & Impact Driver Twin Pack. The pack is Trade Rated, an independent rating that shows the products are well regarded among trade customers. It boasts an 18V Brushless Combi Drill and Impact Driver, two 18V 4.0AH Li-Ion batteries, an 80-minute multi-voltage charger and a robust carry case.

The impact driver and drill are equipped with Milwaukee's RedLink Plus intelligence system that allows for full-circle communication between the tool, battery and charger. The system constantly monitors internal systems and helps maintain peak operating conditions.

Matt Compton, Trading Director at Screwfix, commented: "We are committed to providing the best product range with advanced technology that allows tradespeople to stay on the tools for longer and with more power. This new Milwaukee bundle offers Plumbfix customers the chance to own one of the most advanced 18V drills and impact drivers on the market and is a great new addition to our catalogue."

Another Milwaukee product that plumbers can get their hands on is the Li-Ion RedLithium Cordless Pipe Cutter. Its high performance motor delivers up to 500rpm and makes light work of 12mm copper pipe, cutting through in a matter of seconds. The on-board RedLink technology also helps prevent overload and maintains durability and performance.

Screwfix offer a range of power tool accessories to help plumbers get the most from their tools. One such accessory is a 25 pack of Milwaukee Shockwave Impact Screwdriver Bits. Recently voted as Product of the Year by Screwfix customers, these bits with precision-

milled tips provide the best fit for the screw head and have an optimised 'shock zone' that reduces stress at the tip and results in fewer breakages.

Qualified plumbers can get hold of the brand new Milwaukee products online at www.plumbfix.com, from one of over 640 Screwfix stores nationwide or via its 24/7 contact centre on 03330 112 999. Screwfix's Click and Collect service enables customers to pick-up goods in as little as one minute after ordering and its next day delivery is available every day.
